

Industrial Control Panels

TAILORED TO YOUR NEEDS

INDUSTRIAL CONTROL PANELS

TAILORED TO YOUR NEEDS!

We offer the ideal solutions to improve the lifetime of your energy systems and guarantee the safety of your personnel

Our tailored solutions for industrial control panels include:

- Latest technology
- Multiple communication protocols
- Project management
- Field support and service
- Technical Training
- Intergration of Systems including: Variable Frequency Drives, PLC, HMI, and Condition Monitoring

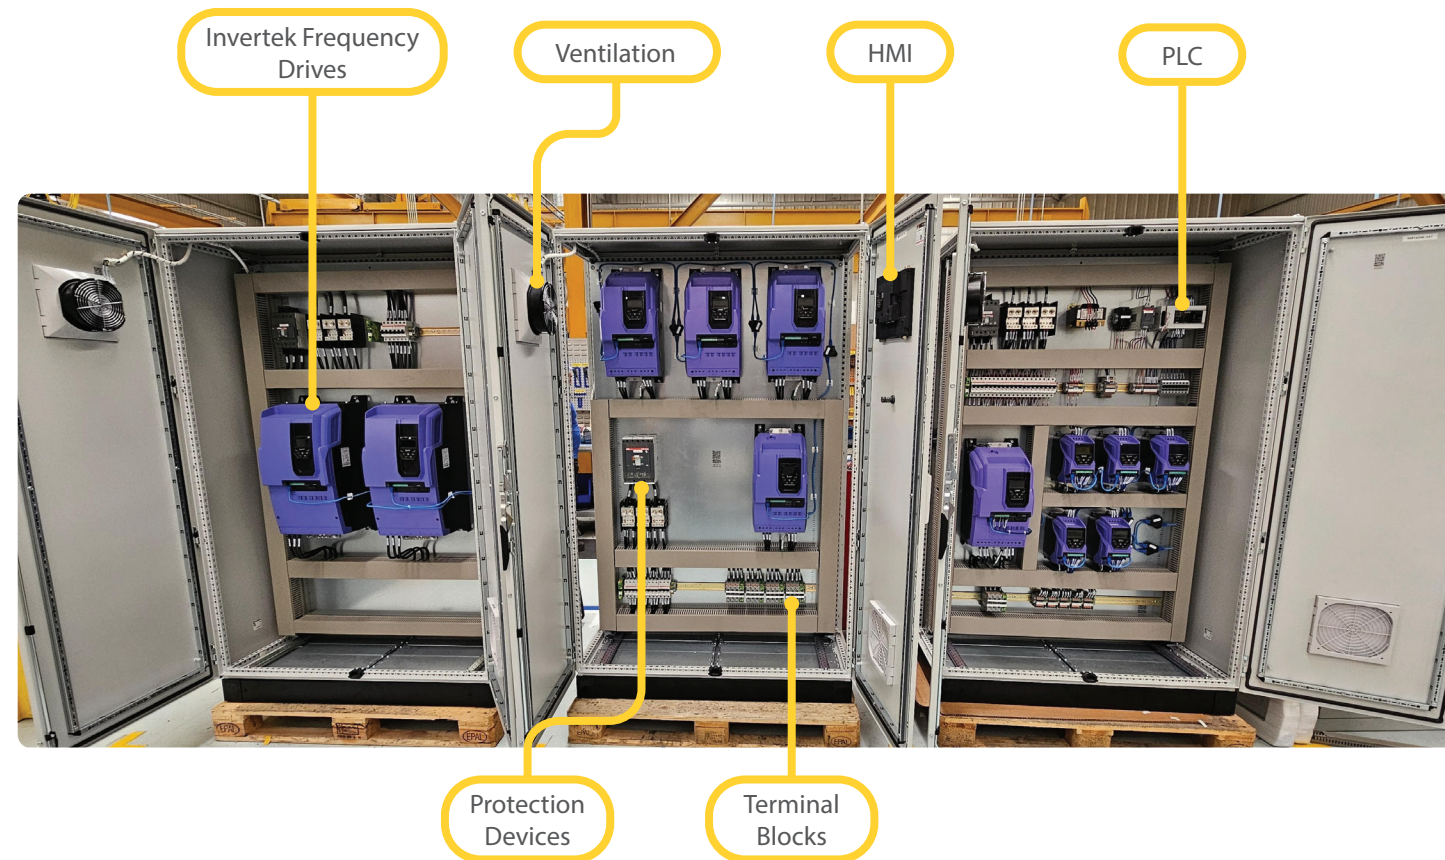

The design and fabrication include:

- **Drawings:** Cabinet Layout, equipment layout, material list, cable diagram
- **Equipment:** Device layout within the panel in accordance with regulations and secure covers for maximum protection.
- **Cabling:** Type, color, shielded, routing, labeling and terminal blocks
- **Labeling:** To easily identify components

Beat the competition

- Tailored to your needs
- Fit to required specifications
- Allow for safe operation and maintenance
- Short delivery lead times
- Easy to use
- Reliable

UL 508A certified

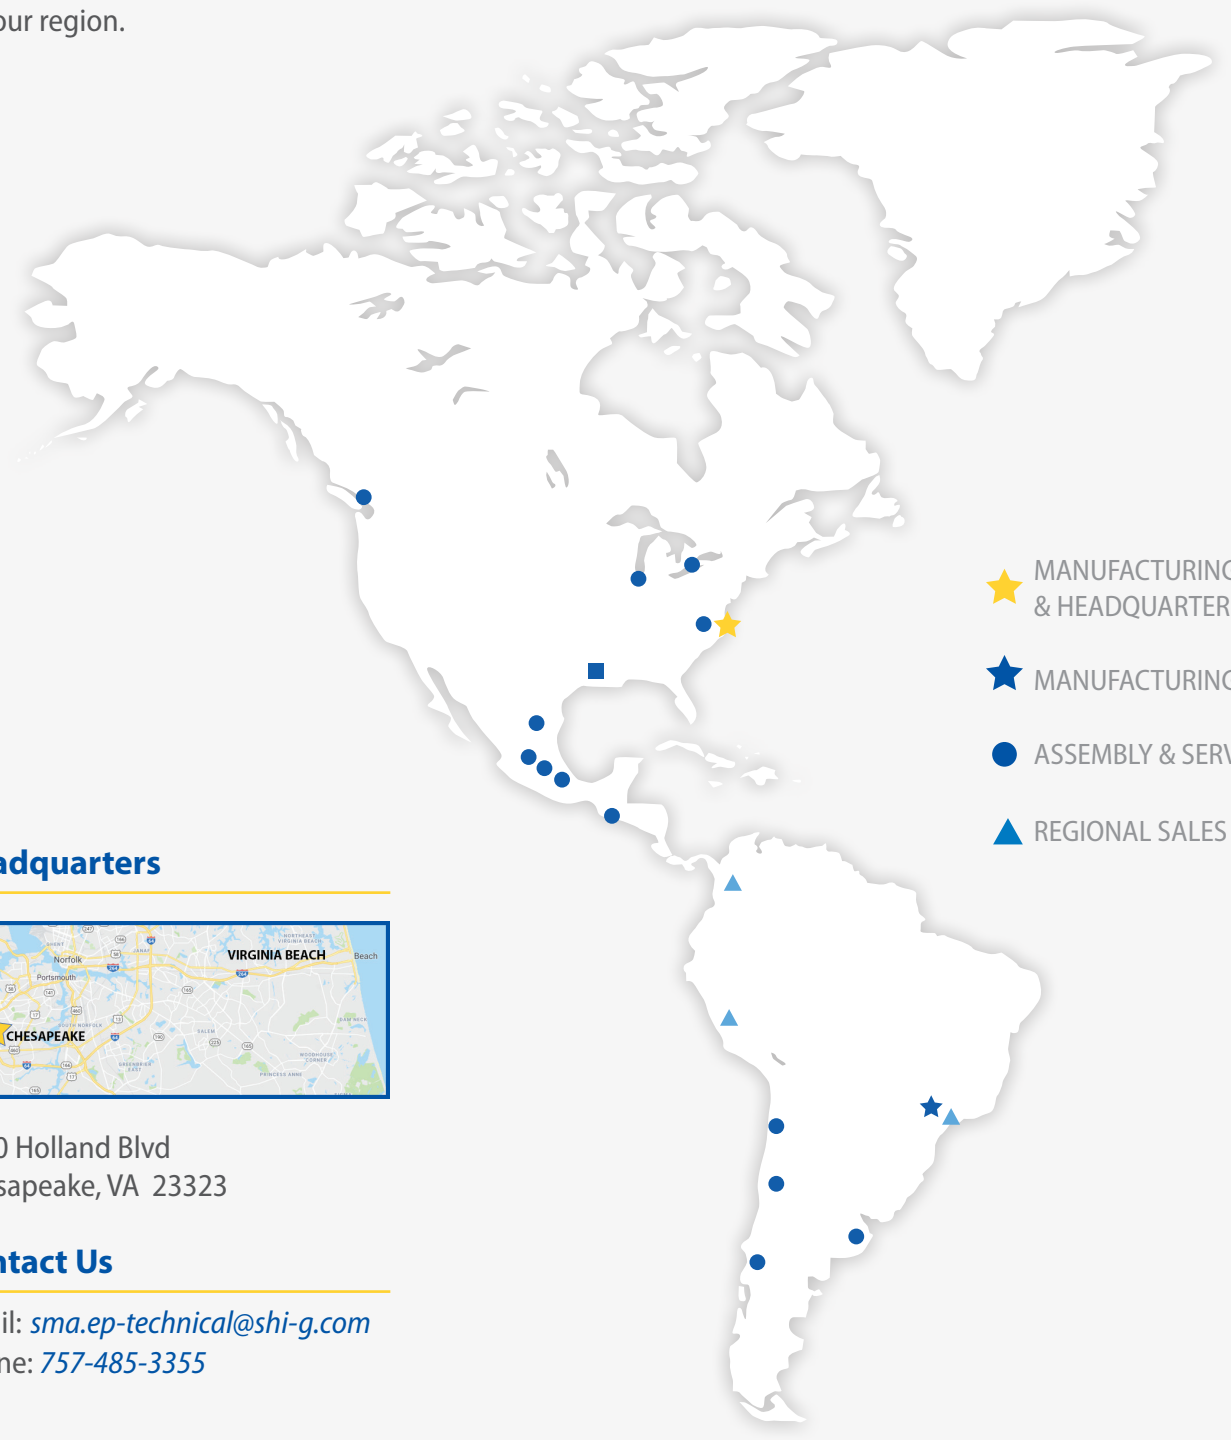

Our personnel are certified to work in accordance with regulations

- Proper use of components
- Environmental classifications
- Motor wiring and protection
- In compliance with the National Electric Code (NEC)
- In compliance with the Canadian Electric Code (CEC)
- In compliance with Underwriters Laboratories (UL)
- Safety Marks

Sumitomo Drive Technologies

A global power transmission solutions provider, with facilities strategically located throughout the world, providing comprehensive products and services in your region.
